BIOENGINEERING INNOVATION & ENTREPRENEURSHIP

DO YOU HAVE AN IDEA OR PROJECT THAT YOU WOULD LIKE TO PURSUE?

Seeking physicians, scientists, clinicians, nurses, and industry representatives to mentor UC Irvine biomedical engineering students to develop innovative healthcare solutions.

3 quarter (**9 months**) Capstone Design Sequence where teams of 4-6 students will:

- Survey unmet clinical needs
- Define FDA design control requirements and product specifications
- Determine optimal technical solution
- Fabricate and test a prototype
- Document and present project development results

Previous Projects and Course Information: <http://projects.uci.design>

INDUSTRY SPONSORSHIP:

\$5,000 donation per project
